

1 Amendment "A"

2 Amendment to the Specification:

3 Please replace the Abstract at page 16, lines 3-11 with the following
4 paragraph:

5 --The invention includes a method, a computer readable medium, and a
6 system for automated form completion for a user of a computer. In one regard, the
7 method includes the steps of identifying one or more fields in a form and then
8 automatically supplying information corresponding to the identified fields without
9 intervention by the user. In one implementation, a computer readable medium is
10 embedded with a computer program configured to perform the above mentioned
11 method. A system of the invention includes a field identifier module capable of
12 identifying one or more fields in a form and a field completer module capable of
13 supplying information corresponding to the one or more identified fields without
14 intervention by the user.--
